1. In accordance with your request, the responsibility for performing the inspection duties of the subject contract is assigned to your Division. One of these basic duties involves the monitoring of the Contractor's performance at his place of business to ascertain that it meets the quality standards of the contract.

The inspection responsibility will also include the authentication of the need for and proper use of Government-furnished and accepted equipment and supplies, and, where required, the checking of Bills of Material against materials claimed to be used by the Contractor to assure qualitative and quantitative accuracy for audit and/or final negotiation and settlement of the contract.
